

Policy on Doping

COF is a member federation of the International Orienteering Federation (IOF) and also a member of the Canadian Olympic Association (COA). The IOF adheres to the Doping & Banned Substances Rules of the International Olympic Committee (IOC). Our athletes are subjected to the same Doping tests at world Orienteering Championships as athletes at the Olympic Games. The IOF provide member associations with copies of the IOC Banned Substances and this is passed on to national team athletes.

As members of the COA we are also governed by their rules which in turn are approved by Sport Canada.

Basically we adhere to the Doping regulations of the IOC, the COA and Sport Canada.
