Wednesday May 7th was the first orienteering meet of the year, held on the War Eagle Map on the Fish Lake Road. The magnificent summer evening brought out a total of 81 people. Three people actually ran two courses in the evening.

It was a great mix of people – those who had just learned how to orienteer at the past weekend's Learn to O clinic, university students home for the summer, up-and-coming juniors enrolled in one of the club's junior programs and the regulars.

For more information on upcoming meets, please visit the yukon orienteering website.
