

## Sept 18, 2015

Rob Plowright, our Australian contract mapper for the summer, offered to plan a bonus event on part of the completely revised Mt. Mac map. On a beautiful fall evening, there were three "Spriddle" courses on offer --- sprint distance with middle technical on a 1:5000 scale.

Highlights of the event included a control placed under the new bicycle trestle in Rocky Canyon (watch for trolls), and some cliff scrambling along the east edge of the map.
