Long Lake SE – Start at the reservoir on Grey Mt Road

It was a perfect evening for Orienteering – cooler temperatures, light breeze and no rain. Forty-two participants navigated through the 4 courses. The terrain in this area was mixed – some very lovely open forests with detailed orienteering and some areas with lots of deadfall, thick moss and ground level vegetation. Hills and deep depressions throughout the area increased the physical challenge to all participants.

Thank you to Lorna Hutchinson and Ross Burnett for help with registration and coaching.
