

Results of Yukon Orienteering Association meet 24 May 2017.

(by Jim and Beth Hawkings 668-2639)

In the tradition of World Orienteering Day events in Whitehorse, this was an urban event on the downtown map. For a change, we used the northern half of the map, with the start and finish at Shipyards Park. It was more of a middle distance event than a sprint, with courses ranging from 2.0 to 4.7 km. This part of Whitehorse is constantly changing, and the original downtown map made in 2004 has been updated here and there (including some updates a few days before the event). In spite of this, the job is still not finished, and participants on the longer courses were treated to a few unexpected (i.e. unmapped) changes, such as new fences and buildings.

The weather was sunny and pleasant for the 76 participants. There were 4 courses available. Everyone seemed to find something to suit their skills.

Thanks to Lorna Hutchinson for helping with registration and providing refreshments and Darryl Bray for helping with equipment take-down.
