## Magnusson Meet Results

A total of 55 participants (including 7 new members) came out on a cool damp fall evening with sprinkles of rain. This map was newly field checked and remade using a LIDAR base map in 2017. All courses featured some challenging hills and some detailed technical areas (advanced and expert). The expert course stretched from Grey Mountain road to some beautiful detailed terrain near the base of Grey Mountain proper.

Thank you to the volunteers who helped me put on this meet. Lorna Hutchinson as usual made the hectic registration table run smoothly. Elias Sagar helped with setup/takedown and putting out the novice controls. Finally thank you to Justine Scheck and Afan Jones who collected the controls. The meet organizer was Bob Sagar.
