

Miles Canyon September 11 2019

Course Planners:

Martin Slama: novice and intermediate courses.

Benoit Turcotte: advanced and expert courses.

Martin and Benoit were following up on their officials certification by planning courses. Course controller: Afan Jones.

There were 60 participants at our last regular, Wednesday evening event for the 2019 season. The event was staged from the Canyon City viewpoint on the Chadburn Lake Road. Novice and intermediate course orienteers went south along the Yukon River toward Miles Canyon. Advanced and expert orienteers went north into technical terrain recently updated (2017) by visiting mappers from Portugal. Advanced and expert orienteers were on middle distance discipline courses.

We had perfect weather for our event: partly cloudy, mid-teen temperatures and a breeze. And there was one black bear sighting at control 3 on the Advanced and Expert courses, but it ran away (thanks to Craig Brooks).

Thanks to assistance in organizing from Bryn Knight and Helen Slama.
