

Copper Ridge Notes, Aug 12-18, 2020

A rainy week still saw more than 50 Orienteers on the Copper Ridge map.

Despite thick green, top expert time went to Leif Blake with 36:12.

The intermediate course provided above average challenges as it zig-zagged between two parallel trails.

Only one control disappeared - the final control on the expert course (located in a residential area play ground).

One participant noted the large number of mushrooms to look at - a by-product of the weather!

Course 1 and 2 got to visit an old ruin, while courses 3 and 4 face two long longs with several route choices.

An old powerline right of way provided challenges for courses 3/4 - it was easy to miss depending where crossed.

Course planner: Craig Brooks
