

Yukon Orienteering Association

Regular Wednesday evening event: Wednesday May 25, 2022

Report & Results

Fifty seven participants took in the first forest event of the 2022 Yukon orienteering season.

The event was held on the Long Lake map area behind Whitehorse General Hospital. The area is best known in orienteering circles for “kame and kettle topography”. That means many depressions! The event area is also crisscrossed with vehicle tracks and trails making for challenging navigation and route choice. The area was first mapped in 1985 and has been revised several times since.

There was good attendance on all courses. Event results show some close races on all courses with seconds separating some participants.

Thanks to Craig Brooks, Bryn Knight, Mike Arsenault and Glenda Koh for helping with registration and to Brian Forsyth for picking up remote controls.
