

Under beautiful clear skies, but cool running conditions, 30 orienteers, ranging in age from under 1 to over 90, enjoyed a run on the subtle topography of the Mount Lorne map. Although the map is over a decade old, it has held up well, with a variety of heavily-trailed areas, open forest, and clearings (including the Mount Lorne golf course). Junior Carl Turcotte took second place on the advanced course, while his brother won the Intermediate, and his sister the Novice class - a powerhouse family in the making! As always, tight competition between Leif, Forest, Phillippe and Benoit on the Expert course. This time Caelen took the win!
