

Riverdale meet - September 11, 2024

The final Wednesday meet of the season had orienteers criss-cross the area between the various Riverdale schools and the green space of the Millennium trail. Although a sprint map, the courses were longer than a regular sprint. It was great to see 35 orienteers at this meet: young and old(er), a new member, and one orienteer on a bike!

Thanks to Afan for assistance with course design. Sara helped with set up, registration, and picking up controls which was much appreciated.
